

LAKE CARROLL ASSOCIATION CONTRACTORS LIST

The Lake Carroll Association has compiled a list of contractors/suppliers that do business at Lake Carroll. We suggest you contact those contractors/suppliers you may be interested in and view some of their work before making your decision. The listing supplied does not constitute a recommendation of any service provider by the Lake Carroll Association or it's A&E Committee. The list is available at www.golakecarroll.com or a hard copy may be obtained at the Lake Carroll Administrative Office.

SURVEYORS PLEASE NOTE: ALL SURVEYS MUST BE A "NEW CONSTRUCTION SURVEY" AND CURRENT WITHIN LAST SIX (6) MONTHS FOR BUILDING PERMIT APPROVAL

"New construction survey" includes location of well and septic of adjoining lots, if available, and is done on 24 in. x 30 in. paper so that plot plan can be added to it. Since 9-21-1987 it has been a requirement that all lots be surveyed by a registered surveyor and certification on the location of the lot pins must be presented to the A&E Committee before approval will be granted for construction. When lot is surveyed, all four (4) corners and four (4) side markings need to be staked before construction.

Property owners are not required to use the surveyors listed. You may use any registered surveyor.
